CASL’s Alzheimer’s Program is offering the National Certified Dementia Practitioner Training for FREE to selected staff members from community partners who are committed to work with CASL to make our Chicago Chinese American community more dementia friendly by identifying and delivering dementia capable home and community-based services to people with Alzheimer’s Disease and Related Dementia or who are at risk!

This 8-hour Dementia Practitioner Certification training will be divided into two 4-hour sessions. Some essential topics include:

- Fundamental education on dementia and dementia care
- Communication techniques
- Sensitive strategies for assisting individuals with ADRD with activities of daily living
- Behavioral/care interventions that may be used to prevent, reduce, or eliminate difficult care situations
- Caregiver stress and stress reduction techniques
